A Phone Call from Jesus?

We're all used to getting the "Scam Likely" calls. Lately, the scammers have upped the game by using a name on the caller I.D. making us think they're in our contacts. Why are we talking about this? Recently Rick was working on some designs for one of Jesus Film's latest films called "Legion." While a few of us were standing at Rick's computer looking over the design workups and struggling with the choices, our concentration was broken as Rick's phone suddenly rang. Who was calling you may ask? "Jesus Reyero" — translated "King Jesus." It was so tempting to answer. We got a good laugh at the timing of this call. Now we're praying that Jesus will be glorified through this amazing animation done by Jesus Film and Disney animators. We're still wondering if we should have accepted the call. ;) See the finished product below. ■
